REGULAR PAPERS

Algorithms, Artificial Intelligence, SOFT Computing and Informatics
Performance Study of Multilayer Perceptrons in a Low-Cost Electronic Nose .................................. L. Zhang and F. Tian 1669

Analysis and Compensation of PEM Fuel Cell Instabilities in Low-Frequency EIS Measurements .......................................................... G. Dotelli, R. Ferrero, P. G. Stampino, and S. Latorrata 1692

Embedded and Low-Power Systems
RAMSES: RFID Augmented Module for Smart Environmental Sensing ............. D. D. Donno, L. Catarinucci, and L. Tarricone 1700

Built-in Self-Test, Design-for-Testing, Fault Diagnosis and Fault-Tolerance
Health Degradation Detection and Monitoring of Lithium-Ion Battery Based on Adaptive Learning Method ...................... J. Yu 1708

Imaging Techniques and Instrumentation
A Machine Vision-Based Maturity Prediction System for Sorting of Harvested Mangoes .... C. S. Nandi, B. Tudu, and C. Koley 1721

Medical and Biomedical Instrumentation and Applications
The Stability Analysis of a Biopotential Measurement System Equipped With Driven-Right-Leg and Shield-Driver Circuits ...... E. Alnasser 1730

Measurement Techniques
A Novel Texture Sensor for Fabric Texture Measurement and Classification .......... A. Song, Y. Han, H. Hu, and J. Li 1738
Modified Charge Amplifier for Stray Immune Capacitance Measurements ......................... R. Oven 1747

Metrology, Standards and Calibration
Realization and Validation of the 10 mA–100 A Current Standard at CEM ........ J. D. de Aguilar, R. Caballero, and Y. A. Sanmamed 1752
Adiabatic Design for a Coaxial Transmission Line .............................................. J.-Y. Kwon and D.-J. Lee 1759

(Contents Continued on Page 1397)
Colored Noise and Regularization Parameter Selection for Waveform Metrology .......................... A. Dienstfrey and P. D. Hale 1768
Generation of Reference DC Currents at 1 nA Level With the Capacitance-Charging Method .......................................................... L. Callegaro, P. P. Capra, V. D’Elia, and F. Galliana 1778

Networking, Networks and Sensor Networks
Scrutinizing Bit- and Symbol-Errors of IEEE 802.15.4 Communication in Industrial Environments .......................... F. Barac, M. Gidlund, and Tingting Zhang 1782
Dynamic Scheduling of Trigger Command for Sub-Microsecond Alignment Accuracy in Distributed Measurement System (DMS) .... F. Lamonaca, D. Grimaldi, and R. Morello 1794

Optical Instrumentation, Measurement and Systems
Real-Time Self-Mixing Interferometer for Long Distances .................................................. A. Magnani, A. Pesatori, and M. Norgia 1803

RF, Microwave, Millimeter Wave and Terahertz
Comparison of S-Parameter Measurements at Millimeter Wavelengths Between INRIM and NMC .................................................. M. Sellone, L. Oberto, Y. Shan, Y. S. Meng, L. Brunetti, and N. Shoaib 1809
Geometrical Optics-Based Model for Dielectric Constant and Loss Tangent Free-Space Measurement ........................................... K. Haddadi and T. Lasri 1817
Guidelines for the Design and Optimization of Wireless Sensors Based on the Modulated Scattering Technique ................ M. Donelli 1823

Sensors, Sensor Fusion and Transducers
Noise Reduction in AC-Coupled Amplifiers .......................................................... E. Serrano-Finetti and R. Pallas-Areny 1833

Signals, Systems and System Identification
Kurtosis-Based Constrained Independent Component Analysis and Its Application on Source Contribution Quantitative Estimation ........................................... J. Zhang, Z. Zhang, W. Cheng, X. Li, B. Chen, Z. Yang, and Z. He 1841
Bias Compensation When Identifying Static Nonlinear Functions Using Averaged Measurements .................................................. P. Carbone and G. Vandersteen 1854

Time and Frequency Domain Circuits and Systems
Limitations of Long-Term Stability in a Coherent Population Trapping Cs Clock .......................................................... O. Kozlova, J.-M. Danet, S. Guérandel, and E. de Clercq 1862

SHORT PAPERS
Automatic Extrinsic Self-Calibration for Fusing Data from Monocular Vision and 3-D Laser Scanner ........................................... Y. Zhuang, F. Yan, and H. Hu 1873
On the Crack Characteristic Signal From an Open-Ended Coaxial Probe ................ K. M. Donnell, A. McClanahan, and R. Zoughi 1876

ERRATA
