IEEE TRANSACTIONS ON
INSTRUMENTATION
AND MEASUREMENT

A PUBLICATION OF THE IEEE INSTRUMENTATION AND MEASUREMENT SOCIETY

AUGUST 2012 VOLUME 61 NUMBER 8 IEIMAO (ISSN 0018-9456)

SPECIAL SECTION ON MEASUREMENT FUNDAMENTALS

Editorial ............................................. A. Ferrero

SPECIAL SECTION PAPERS
Analysis of Key Comparisons Incorporating Knowledge About Bias ........................................... I. Lira, A. Chunovkina, C. Elster, and W. Wöger
A Simple Nonparametric Preprocessing Technique to Correct for Nonstationary Effects in Measured Data ..................................................... K. Barbé, W. Van Moer, L. Lauwers, and N. Björsell
Toward an Interdisciplinary Probabilistic Theory of Measurement ............................................. G. B. Rossi
Measurement Fundamentals: A Pragmatic View ................................................................. L. Mari, P. Carbone, and D. Petri
Measurement Uncertainty: Literature Review and Research Trends ..................................... P. da Silva Hack and C. Schwengber ten Caten
Measurements for the Future—A Complete SI From Physical Constants ................................. B. P. Kibble
Detecting a Time-Varying Behavior in Frequency Response Function Measurements ...................... J. Lataire, E. Louarroudi, and R. Pintelon
Measurement, Models, and Uncertainty ............................................................. A. Giordani and L. Mari
From Errors to Probability Density Functions. Evolution of the Concept of Measurement Uncertainty ......................... W. Bich
Quantum AC Voltage Standards ...................................................................................... T. E. Lipe and J. R. Kinard
Uncertainty: Only One Mathematical Approach to Its Evaluation and Expression? ................... A. Ferrero and S. Salicone
Impact of the Model on the Accuracy of Synchrophasor Measurement ..................................... P. Castello, M. Lixia, C. Muscas, and P. A. Pegoraro

REGULAR SECTION PAPERS

Algorithms, Artificial Intelligence, SOFT Computing and Informatics
A Real-Time Visual Inspection System for Discrete Surface Defects of Rail Heads ......................... Q. Li and S. Ren

Built-in Self-Test, Design-for-Testing, Fault Diagnosis and Fault-Tolerance
Health Condition Monitoring of Machines Based on Hidden Markov Model and Contribution Analysis ..................... J. Yu
Low-Power Die-Level Process Variation and Temperature Monitors for Yield Analysis and Optimization in Deep-Submicron CMOS ........................................................................ A. Zjajo, M. J. Barragan, and J. P. de Gyvez
Health Monitoring of Cooling Fans Based on Mahalanobis Distance With mRMR Feature Selection ........................................................................ X. Jin, E. W. M. Ma, L. L. Cheng, and M. Pecht

(Contents Continued on Page xxx)
Measurement of Materials and Applications

In Situ Moisture Content Monitoring Sensor Detecting Mutual Coupling Magnitude Between Parallel and Perpendicular Dipole Antennas. .......................................................... T. Limpiti and M. Krairiksh  xxx

Nondestructive Evaluation and Remote Sensing

Quantitative Evaluation of Impacts of Random Errors on ALS Accuracy Using Multiple Linear Regression Method .......................................................... J. Wang, L. Xu, X. Li, and Z. Quan  xxx

RF, Microwave, Millimeter Wave, and Tera-Hertz

A 2-20-GHz Analog Lag Correlator for Radio Interferometry .......................................................... C. M. Holler, M. E. Jones, A. C. Taylor, A. I. Harris, and S. A. Maas  xxx

Sensors, Sensor Fusion, and Transducers

Feasibility Study and Performance Analysis of a Gyroless Orientation Tracker .......................................................... B. Huyghe, P. Salvo, J. Doutreloigne, and J. Vanfleteren  xxx

Signals, Systems and System Identification

A New Regularized Adaptive Windowed Lomb Periodogram for Time–Frequency Analysis of Nonstationary Signals With Impulsive Components .......................................................... Z. Zhang, S.-C. Chan, and C. Wang  xxx

Time and Frequency Domain Circuits and Systems

SHORT PAPERS

Detection of Corrosion in Reinforcing Steel Bars Using Microwave Dual-Loaded Differential Modulated Scatterer Technique .......................................................... K. M. Donnell and R. Zoughi  xxx
Kinship Measurement on Salient Facial Features .......................................................... G. Guo and X. Wang  xxx
Time-Domain MIMO Channel Sounder Based on Code-Division Multiplexing .......................................................... C. Garcia-Pardo, J.-M. Molina-Garcia-Pardo, and L. Juan-Llacer  xxx
Enhancing the Performance of Active Shape Models in Face Recognition Applications .......................................................... C. A. R. Behaine and J. Scharcanski  xxx
Data Acquisition System Based on Subsampling Using Multiple Clocking Techniques .......................................................... J. R. G. Oya, F. Muñoz, A. Torralba, A. Jurado, F. J. Márquez, and E. López-Morillo  xxx
