

Submission Format and Guidelines

- Please use Word format, 12 point Times New Roman, with margins of 2.5 cm on each side, one-column, left justified, with 1.5 line spacing. Please keep it at no more than 3,500 words (5000 words for review articles) including tables, and no more than five figures.
 - Number all equations, references, tables, and figures in consecutive numerical order.
 - Use bullets for items in a list. Numbering will be changed to bullets.
 - Please write **headings** in bold font and **subheadings** in bold italic font with *no numbering*. Third level headings should be incorporated in the first paragraph of that heading.
 - The magazine format does not include an abstract. Please include an *introductory paragraph* instead that acts like an abstract.
 - Please limit the number of references to 10 (15 for review articles) if possible.
 - Please include a 3-4 line bio for each author after the **References**.
 - If the paper has no references, please supply three “For Further Reading” sources. These should be added at the end of the article and be in the format for references but do not need to be cited in the text and are not numbered.
-
- Please note that you are submitting your article to a magazine whose primary area of interest is Instrumental and Measurement (I&M). As such, your article must be framed in the proper context of I&M. Therefore, it is expected that sufficient references be made to articles published in I&M venues, such as this magazine, IEEE Trans. on Inst. & Meas., and other I&M journals and conferences.
 - File size of email attachments total is limited to 8 MB.

Figures

- All figure files should be numbered and have a caption; for example, “Fig. 1. Caption.” Please include figures in line with text.
-

Other Requests

- Please send a completed copyright form with a signature.
- Please include one author to be the contact for the formatting and production process.
- If your article is accepted and the magazine is printed, we will send five complimentary copies to each author. We ask that the contact give each contributing author 5 copies of the magazine. Please send a mailing address and phone number of the contact for the shipper.
