

**Special issue on
“XXXXX”**

in IEEE Instrumentation & Measurement Magazine, to be published in XXXX

Please describe: SPECIAL ISSUE SUBJECT DESCRIPTION AND MAIN TOPICS

Papers should present to the wide audience a general overview of one scientific subject of your interest fitting the Special Issue Topic that is specifically framed in the Instrumentation and Measurement field (I&M). Contributions dealing with Open Problems in I&M are very welcome, and they should present challenging and ambitious solutions, which could be developed by current and advanced technology.

While drafting your paper to be submitted to Instrumentation & Measurement Magazine, you are strongly invited:

- to follow authors guidelines, both for styling and contents: <https://iee-ims.org/publication/iee-imm/new-submissions>
- to make sure your article is properly framed in the field of I&M. This could be achieved by properly structuring the Review of the State of the Art and motivations of your work.
- to write the paper for the general I&M audience.

In general, each paper should contain 3500-5000 words and present 4-6 figures.

When your paper is ready, please submit it completely through <https://www.editorialmanager.com/IMM/default.aspx>

With your submission, please include a cover letter in which you specify that this paper has been submitted for the SI on XXXX.

Schedule:

Full-length paper submission: XXXXX
Revised manuscript due: XXXXX
